## Introduction

Grant Lewi (1902 - 1951) is a legendary figure among twentieth century astrologers. He was a writer and editor for the two largest astrological magazines of the time. His two books, *Heaven Knows What* and *Astrology for the Millions*, were the first astrological books to become best sellers and even today, over fifty years later, they remain among the best introductions to the subject of astrology.

The astrological interpretations found in *Heaven Knows What* and *Astrology for the Millions* were unique, fresh, and simple. Llewellyn George, the prominent astrologer of the time, remarked that Lewi's interpretations must be intuitive because they were unlike any that had been written before him. Today these interpretations remain energetic and forceful and, though some references are now dated, Lewi's text still provides some of the clearest insights found anywhere in the literature of astrology.

Lewi was determined to make astrology more accessible to the average person, but while popularizing the subject he never watered it down or reduced it to the level found in "sun sign" astrology. Writing before computers were available, he made his books function as the computer, providing the reader with tables to generate their own charts or horoscopes and then linking his interpretations to the information found there. Lewi would have made good use of the computer, so much in his books seem to anticipate them. In his writing he tried to emulate the interpretation process by using a computerless version of artificial intelligence: the meaning of a planet in a sign doesn't stand alone but is modified by the other aspects found in your chart. Many of his comments depend on a combination of factors and for this reason you will sometimes find that he has something different to say about an aspect in your chart than he does for the same aspect in your friend's chart.

This report calculates your chart for you and then collects all of Lewi's comments strictly according to the astrological factors found there. The text contained here is valid even for those who don't know their time of birth - Lewi focused on those factors that are in effect throughout the birthday. The only exception to this is the case of the Moon which can move between 12 and 14 degrees in a day, so if the positions were calculated for noon then the Moon could be as much as 6 or 7 degrees different and possibly even change signs. If you don't know your time and the texts that involve the Moon seem unlikely, you may wish to compare reports done for the beginning and the end of the day.

At all times, Lewi's aim has been to show how astrology can be used as an aid in living a more satisfying and fulfilling life. Astrology offers indications and pointers - and sometimes insights - to situations that you find in life. It doesn't tell you what to do about them, but if it offers you a better understanding of the situation, then you are in a better position to decide for yourself what to do. To quote Grant Lewi:

*"It is not limitations that eats out the heart, but inaction, the knowledge of powers not used, the sense of having failed to develop to the utmost. The overcoming of fate is not the overcoming of*

limitations: that is impossible. It is the exercise of free will, the assertion of the full self, expanding to its utmost with the tools at hand, in the circumstances that are set. Astrology, through the interpretation of the horoscope, assists men to the achievement of their maximum by indicating to them the lines along which their will may be most progressively applied, the goals to be sought, and the individual means by which each one may arrive at the outermost boundaries of his world."

## **Horoscope of Birth**

Your horoscope of birth is the blueprint of your personality and character as indicated by the position of the Sun, the Moon and the eight planets on the date of your birth. This section is devoted to each of these members of the solar system.

The planets are the antennae and arms of the horoscope, of which the body and soul are the Sun and Moon. No planet will ever cause you to act counter to the testimony of the Sun and Moon in their combined influence on you. Remember this when you proceed with the following readings. All planetary vibration must be considered in light of the basic solar-lunar readings, for these are your character, your basic nature, which the planets will help or hinder but cannot materially change.

According to the sign position of your Sun, one planet will be more important than the others and should probably be read first. Your Sun is in Cancer and your dominant planet is the Moon. Not only the action of this ruling planet will be very important in your life, but also the attribute over which it rules. Thus Gemini, ruled by Mercury, lives a great deal in the senses; Libra, ruled by Venus, responds most readily to emotional stimuli; and so on. Study your ruler carefully.

Remember in all planetary readings that they work within the pattern of your solar-lunar nature; never against it. The synthesis of your horoscope from the following series of paragraphs to a working unit depends on your keeping this in mind, which will enable you to weld all the readings into a unified and significant whole.

### **Sun in Cancer and Moon in Leo**

You have a great feeling for other people, and you cover up your independence under a cooperative spirit which really isn't more than skin-deep, for you are deeply an individualist and, if it comes to a showdown, will have your own way and make the world like it. But you know that you catch more flies with sugar than you do with vinegar, and so you are able to give the illusion of tractability. You compromise by appearing to understand what the other fellow is driving at, but you get your own way in the end. In the presence of constituted authority you will take orders, but it is your constant aim to work yourself into a position where you can give orders. You are proud, honorable, and highly self-respecting. When your apparent good-nature is imposed upon you are capable of simply walking off in cold blood rather than in anger or resentment. You haven't a great deal of faith in people, but you have a good deal of faith that you can get things out of them that no one else can. You believe that although people are fundamentally deceptive, treacherous, or stupid

they will be loyal to you personally when they might not be to someone else. As a matter of fact you are right in this, for your sense of justice and fair play makes people stick to you, and even those who have no especial sense of right and wrong for its own sake will do right by you.

You take yourself rather seriously, and others are willing to accept your own estimate of yourself, which is rarely low. You give the appearance of pride and hauteur and your associates are ready to assume that there must be something behind it. You are good at analysis, detail, and business organization and frequently will be found in executive capacity in the business or professional world. Emotionally you are loyal without being constant, if you know what I mean, which you will. You understand the "I have been true to thee, Cynara, in my fashion" sophistry only too well. You are tolerant of the foibles of the world, not excluding your own, but you are capable of the inconsistency of "Do as I say, not as I do" where matters of love-loyalty are concerned.

You lead a hectic emotional life.

### Sun

The Sun indicates the appearance you will present before the world and the psychological bias which will dominate your actions. What you seem, and why, are told in the reading for your Sun. In many ways the Sun is the dominant force in your horoscope and in your life. Other influences, especially that of the Moon, may modify the Sun's influence, but nothing will cause you to depart very far from the basic solar pattern. For this reason a whole literature and a whole business have grown up around Sun-sign astrology; and many people exist who think there is nothing more to the horoscope than knowing what "sign you were born in" and what the Sun in that sign means. This is a mistake, as you will discover when you have read the influence of the other bodies. But throughout your reading, keep in mind always the basic influence of the Sun, and remember that all other influences must be interpreted in terms of it, especially in so far as other influences play a visible role in your life. You may think, dream, imagine, hope to be a thousand things, according to your Moon and your other planets, but the Sun is what you are, and to be your best self in terms of your Sun is to cause your energies to work along the path in which they will have maximum help from planetary vibrations.

### Sun in Cancer

"We the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty for ourselves and our posterity, do ordain and establish this Constitution for the United States of America."

*Preamble to the Constitution of the United States,  
which as a nation was born in Cancer, July 4, 1776.*

The defensive, protective instincts dominate Cancer, whose life aims primarily at security, material and domestic. Capable of great self-sufficiency, or of being a clinging vine (male or female), the Cancer branch will take the turn as indicated by the roots, which must always be in secure soil. If independence serves security, Cancer will be independent; if security depends on

another, Cancer will cling. If security requires taking a chance, Cancer will take a chance - generally, if possible, with someone else's money, and once he has put his capital or someone else's into a venture, he watches it like a hawk. His sense of responsibility toward another's money, security, etc., is as deep as if they were his own; he pays his debts and expects others to do the same. It was Coolidge, Cancer President, whose solution to the war debts was of naive simplicity: "They hired the money, didn't they?" It is this simple, direct possessiveness toward what rightfully belongs to him that makes Cancer outstandingly successful in business, where he makes his fortune buying and selling, rather than in Wall Street. Cancer will gamble when he has a nest egg, not before, and then as a game rather than as a means of livelihood.

With livelihood (security), Cancer takes no chances, either in getting it or keeping it. It is therefore tops as a home-making sign; the maternal-paternal instinct is powerful; and the Cancer, male or female, will go to great lengths to protect, defend and improve his home, mate and children. If Cancer remains unmarried, it is because protectiveness has turned somehow into fear or selfishness; or because he feels that in some way his security is best served alone. Cancer protects himself, as well as his possessions, and may protect himself from the chances of emotional hurt by withdrawing into himself and making his security there, alone. This is a pitiable sight, because Cancer really needs a home and should have children, and few persons give the effect of incompleteness more than the introverted Cancerian who has no one to lavish his protectiveness on but himself. For in its complete development, the Cancer protectiveness becomes encompassing love that fills all its world, and warms and comforts those who are lucky enough to live in the sphere of its radiations.

Your luck and energy may be good, but you need to work up drive, direction, and purpose.

#### **Sun Trine Mars    Orb: 00°08'**

You have abundant physical vitality and little hesitancy in using it. You are always on the move. Your aims and purposes, being direct and clear and animated by a good physical equipment, carry you to success. You are forceful, hard-hitting, aggressive, knowing where you stand and where you are going. You wear out less energetic souls by the speed and continuous level of your activities, for you are seemingly tireless and can stand shoulder to shoulder with the strongest when it comes to matters of endurance. Since a good deal of the success of this world in material matters depends on physical vitality, you have an edge on competitors. You are an excellent leader not so much of thought as of action (unless Mercury is powerful) and frequently choose the army or navy as your field of activity, where you speedily rise to authority; or business, where you won't long stay in a subordinate position. You overwhelm people, and they naturally give way to you.

#### **Sun Trine Saturn    Orb: 09°02'**

You are lucky, coming of good stock and being born into a favorable environment. Elders have done a good deal for you, and no matter how poor your parents may have been or how rich, they have seen to it that responsibility was removed from you as much as possible and that the hardships of life did not touch you. You have a good sound body and mind. You are serious without being dejected or depressed, and are capable of concentrated effort. Look out, there is a tendency to relaxation and absence of direction and purpose - luck helps you out, but you don't seize or create

opportunities. The tendency of this aspect is to smugness and self-satisfaction, pride and relaxation of ambition and energies, so that, despite a sound mind in a sound body, you don't seem to get very far. You have lots of luck with very little effort; maximum return for minimum work, and material security.

### **Moon**

While the Sun's position by sign determines what motives and urges dominate your life as it meets the naked eye, the sign position of the Moon tells the desire of your heart which may or may not be expressed or realized in your life. When you "know what you mean but you can't say it," it is your Moon that knows it and your Sun that can't say it. "Thoughts that do often lie too deep for tears" are the thoughts of your Moon's nature. The wordless ecstasy, the mute sorrow, the secret dream, the esoteric picture of yourself that you can't get across to the world, or which the world doesn't comprehend or value - these are the products of the Moon in your horoscope. When you are misunderstood, it is your Moon nature, expressed imperfectly through the Sun sign, that you feel is betrayed. When you know what you ought to do, but can't find the right way to do it, it is your Moon that knows and your Sun that refuses to react in harmony. Also, when you "don't know why I said that," it was your Moon expressing despite your Sun (if you are innerly satisfied with the involuntary speech), or the Sun expressing against the will of the Moon (if you are displeased with what has slipped out). Things you know without thought - intuitions, hunches, instincts - are the products of the Moon. Modes of expression that you feel are truly your deepest self belong to the Moon: art, letters, creative work of any kind; sometimes love; sometimes business. Whatever you feel is most deeply yourself, whether or not you are able to do anything about it in the outer world, is the product of your Moon and of the sign your Moon occupies at birth.

### **Moon in Leo**

The portrait you paint of yourself is heroic and towers above the world you inhabit. To live up to the level of your inner picture is a lifetime job requiring energy, courage and considerable sense of the drama of existence. Private satisfactions are not very important to you; you are less introspective than most. You want to see the tangible evidence of success, and like it best if the rest of the world can see it, too. You are a bit of a show off, but since you are utterly honest with yourself, you can laugh at your own vanities, even when they remain important. You want valuable possessions, well-groomed children, good clothes, accomplishments and evidences of accomplishment that others can applaud. Your desires are basically simple, and your methods of getting them direct; you know what you want and are willing to make sacrifices for them. You won't sacrifice personal integrity, however, or honor, which are the intangibles that do matter to you. Education, culture, art, music, however, matter less. You can take 'em or leave 'em alone; and ten to one, if you do take 'em, it isn't because they really feed your soul, but because you think evidence of such a soul will in some way add to your prestige. Throughout your life you will strive to fulfill an image of yourself which is less a portrait than a statue dominating the landscape of your life by its size, its beauty, the dramatic quality of its setting and the colorful beauty of its trappings. And in becoming this statue you are likely to become a lot of other more spiritual things which you don't even desire and which are added to you because of the honest workmanship that goes into your self sculpture.

Following are the aspects to your Moon. Look to the trines and sextiles to give you charm and clear-thinking; and to the squares and oppositions to provide you with concentration and driving force.

### **Moon Conjunct Uranus    Orb: 08°12'**

You are one of the outstanding people of your circle. You are a character; with markedly individualistic traits, original, fearless in thought and expression, a trifle eccentric, uncompromisingly independent. Given a choice of two modes of conduct, a usual and an unusual, you will unhesitatingly select the unusual, the unconventional, the aggressive. You lean to the bizarre, the revolutionary, the daring, so that in a constructive, creative, or executive horoscope, you become an important person, respected for your intelligence and authority, and somewhat feared because no one ever knows what you are likely to do next. So idealistic and expansive is your mental outlook that money is of secondary importance to you, though you know how to spend it - or rather, how not to hang on to it. You are emotionally erratic, sure to have a large fund of experience, and some difficulty in marriage through outbursts of temperament.

In a man's horoscope, you are sure to have at least one wife who will bring out the worst of this configuration. You run to odd, strange, unconventional associates, and will probably at some time link yourself with the oddest and most intractable person you can find. This position gives you tense nerves, and a continuous strain seems to be on you so that, unless controlled and guided, your health suffers from nervous ailments that can amount to neurosis. There is interest in obscure and out-of-the-way subjects, occult rather than metaphysical.

### **Mercury**

Mercury is the sense-impression antennae of your horoscope. His position by sign indicates your reactions to sights, sounds, odors, tastes and touch impressions, affording a key to the attitude you have toward the physical world around you. Mercury is the messenger through which your physical body and brain (the Sun) and your inner nature (the Moon) are kept in contact with the outer world, which will appear to you according to the index of Mercury's position by sign in the horoscope.

### **Mercury in Cancer**

What you hear, smell, taste, feel and see are of intimate and close concern to you. You are sensitive to every breath of air; you take it to your heart and cherish your reaction to it. The smell of the garbage truck is a personal affront to your nostrils, while the rose was created exclusively to delight the same. Loud noises persecute you, and you tend to think they were made for that purpose; while music is art's personal gift to you alone. You adopt the beauty of the landscape as if no one ever looked on it with true worship before. This personalizing of sense impressions can make you an awful fuss-budget, and also a bore if you insist on telling everyone how much you love, or hate, everything. On the other hand, the sensitiveness of your reactions and the intimacy with which you regard them make you capable of creative power, for art is only the personalized sense impressions of the artist, absorbed into the total personality and given forth in form. Add a

point of view to your tendency to gush, develop a philosophy of beauty to give weight to your natural appreciation; learn to make sense impressions your own, and then release them into a significance larger than personal, and you have all the ingredients to make you a master in one of the arts.

**Mercury Sextile Jupiter    Orb: 05°26'**

You have had a fine education, and a trained mind makes life easy. You are just, honorable, and somewhat proud of your mental achievements. You are anxious to impress people with your knowledge and very sure of yourself. This doesn't necessarily make you accurate and a tendency to elaborate tinges your giving out of information, though not in a way to make you untruthful, You philosophize a good deal, thinking in general rather than specific terms, and may be hard to pin down to details. You are judicial - this may accompany downright Puritanism and in any case contributes to the puritanical side of your nature. You incline to the professions, your mental bent being somewhat more philosophic and academic than the bent that normally leads to business. If by any chance you get into business, your ability to see things in the large will contribute to your advancement, and your integrity will be appreciated and rewarded. Keep your feet on the ground, for an inclination to go into generalities can destroy your business sense.

**Mercury Trine Neptune    Orb: 08°09'**

This aids intuition and reasoning powers; and with other indications of creative and concentrative gifts lends an inspirational quality to the work. If no creative power is shown this aspect is unimportant, giving balance to the mind, glibness and facility to the speech, and lending charm to the voice. You have a kind of detached and abstract viewpoint on knowledge, loving it for its own sake. You are thus anxious to satisfy your intellectual curiosity even with odds and ends of information that you may never use. It helps the memory and makes you a good story teller, for you don't forget much, and something is always reminding you.

**Mercury Sextile Pluto    Orb: 08°48'**

You are fascinated by the enigmatic or bizarre, and your thinking is geared to gaining a deep understanding of the mysteries of life. Because of this, you are a natural researcher and student of the occult, the sciences, psychology and astrology. You aren't satisfied by the dogmas or theories that others are content with; your search is for a personal truth, a notion of your place in the cosmos. Although you are secretive by nature, there is nothing that gives you more pleasure than digging into other people's secrets. Your determination helps you to learn a subject in considerable depth or to get to the bottom of neighborhood gossip. You have to exert yourself to develop your mental resources, since you are apt to coast along, learning only what comes easiest. Concentration and discipline should be cultivated. Once they have been developed, you can use your powers of persuasion to lead others gently.

**Venus**

Venus is the emotional antenna of your horoscope. Through Venus, impressions come to you from the outer world because of which you feel and react emotionally. The position of Venus by

sign at the time of your birth gives the key to your attitude toward these emotional experiences. As Mercury is the messenger linking sense impressions (sight, smell, etc.) to the basic nature of your Sun and Moon, so Venus is the messenger linking emotional impressions.

### **Venus in Gemini**

You are emotionally aware, very susceptible to emotional stimuli, sensitive in that you react to them swiftly. But in the other sense you are not sensitive or touchy. Your emotions color your life and your reactions in a very lively manner; they are like a constant sheet of clear warm water that bathes you always, without necessarily penetrating very far beneath the surface. The alertness with which you relate sense experience to your emotional nature, and the glibness with which you can tell how you feel about everything, can make you a clever writer or artist. To express your emotions is almost as important to you as to feel them. You may learn to understand a whole lot about love and the world of the senses in theory, because you cover so much of it so swiftly. You are a gay companion, sophisticated, knowing all the answers. You may go on to another love, another experience, but you will retain a comradely interest in everyone you have ever known. You don't usually quarrel with people. You ought to probe yourself to see if you are getting the most out of life, or if you are only skimming the surface. "The world is so full of a number of things" - what one thing is your heart set on?

### **Venus Square Mars    Orb: 05°30'**

This strengthens your emotions and passions and will bring you some turbulent experience through love and sex at some time during your life. It adds a note of inharmony and strangeness to the love-life, making you extremely self-willed and independent. You are temperamental, and if the intellectual qualities are not markedly strong, you may be led to serious involvements through the misdirection of the passional and sensational nature. If the mental qualities are strong, this increases romanticism and intrudes a sensual note into the nature. It also inclines to financial extravagance in the matters of pleasure, dress, personal and domestic finery. There is a good deal of spice to your personality. You are magnetic, love company and a good time, and there is very little prudery about you. You'll swap yarns with the best of 'em, and maybe not always Sunday-school stories either.

### **Venus Sextile Jupiter    Orb: 07°31'**

You have a gentle nature, sensitive and anxious not to hurt people or to be hurt by them. There is danger of your being imposed on, either personally or financially, through your emotions and sympathies. You have a somewhat matter-of-fact attitude toward love and will no doubt make a "good" marriage; you wouldn't be likely to marry beneath your station. This is not an "all-for-love-and-the-world-well-lost" configuration, but one that achieves satisfaction in love without going far afield from the hereditary and socially set pattern. You love the nice things of life and one way or another will manage to have them around you. This aspect doesn't create much for good or evil in itself, but supports other tendencies. If there are not other aspects to Venus the indications here will be significant, but almost any other aspect will fundamentally absorb this one and submerge its influence.

**Venus Trine Neptune    Orb: 04°49'**

You are romantic, charming, alluring - and impressionable. You are idealistic, always looking for perfection in your sweethearts and in the world and blissfully certain that even though it may elude you, it's there and will be found eventually. You are more trusting than erring mankind deserves. You can be fooled by one person and, in the twinkling of an eye, trust someone else who may be even less trustworthy. You are attracted to out-of-the-way people - waifs and strays, down-and-outers, and can get yourself into a lot of trouble by believing in crooks, frauds, sensationalists, adventurers, and out-right seducers. Unless you lead a pretty sheltered life you will be taken in and shaken down at some time or other. Much deception and treachery occurs with respect to love matters. This is one of the supporting factors for material luck in life.

**Venus Sextile Pluto    Orb: 04°09'**

This aspect deepens your response to love, people and life in general. You have the rare quality of seeing the best in everyone, thus helping to bring it out. Beauty, symmetry and goodness are the things you look for in life - and find! Your friends come from all social classes and backgrounds. Your understanding and appreciation of love is instinctive, and you are fully prepared to accept the responsibilities of love as well as the joys.

**Mars**

Mars is the energy principle in the horoscope. His position by sign indicates the channels into which energy will naturally flow, and the uses to which energy will most easily be directed. It is the planet through which the activities of the Sun and the desires of the Moon express in action - through which your body and your mind react to the sense impressions of Mercury and the emotional impressions of Venus.

**Mars in Pisces**

Mars tends to disappear in Pisces, and your vitality is likely to be low and jumpy. You tire easily, and thus withdraw a good deal into yourself. Energy can waste itself in brooding, introspection, and fears, if you aren't constantly on guard against these. You should select for yourself activities that don't tax the physical body too much, and learn to follow the ebb and flow of your strength. You can in this way, by being on the qui vive for the tides of your life, go a long way, for when you are not working, you are storing up ideas and vitality in the conscious and subconscious that express later. But when you try to keep going all the time, you lose energy, magnetism and ideas. You shouldn't try for too much physical expression of love, for your energies don't work here any more constantly than in other physical matters. When you're tired, you aren't worth much and tend to think badly of yourself. Master yourself by allowing plenty of time for rest and by being willing to go at a slower pace. Your mind works best in repose and solitude, and you should learn to lapse into both of these gracefully, without allowing them to become brooding and depression of spirits.

**Mars Trine Saturn    Orb: 09°11'**

You are a builder, willing to start at the bottom of a career and work your way deliberately to the top. There's nothing flimsy about the structure you build. This may make you an actual architect, or it may make you figuratively an architect of your own fate, laying your plans far in advance, and working soundly for their accomplishment. You have an excellent balance of boldness and reticence, aggressiveness and tact. You know when to fight and when to run away, when to push your affairs and when to let them bide their time. Your great asset is a sense of balance and proportion. Your judgment is excellent, and you always know where you are going and how each brick, however small, is going to fit into the eventual product.

This is one of the best of all aspects (except those to the Sun and Moon) for self-reliance, progress, and sound success, the extent and nature of which will depend on other indications. But as insurance that your energies will find constructive and progressive outlet, you wouldn't want anything better than this.

**Jupiter**

Jupiter is the feeler you have out in the world for opportunity. Through it the chances of a lifetime are passed along for consideration according to the basic nature of Sun and Moon. Jupiter's sign position indicates the places in which you will look for opportunity, the uses to which you wish to put it, and the capacity you have to react to and profit by it. Jupiter is ordinarily, and erroneously, called the Planet of Luck. It is "luck" in so far as it is the index of opportunity; but your luck depends less on what comes to you (Jupiter) than on what you do with it (the total personality). Opportunity appeals to you along lines laid down by your Jupiter.

**Jupiter in Virgo**

This position enables you to find opportunity in small beginnings, to take infinite pains with the little things that underlie success, and to plug along at a hopeless cause until - lo and behold! - it amounts to something. The effect you give is of care, caution, and routine perfection of details; and because of this, you are often able to win support from financial interests who value these traits and consider them good credit reference. You will generally be able to get backing for your business; you believe in putting all your eggs in one basket and watching the basket, with the result that you frequently hatch quite a brood. Spectacular or risky ventures don't appeal to you. If this position limits the imagination somewhat, it is also likely to get you farther in the long run than the dashing fellow who has been through several fortunes, or jobs, while you have studiously been cultivating your own garden and raising a fine crop of security and possessions.

**Jupiter Square Saturn    Orb: 03°51'**

You hold yourself back by being unable to imagine yourself in a higher place than you are. Your ambition is limited, and a certain humility hangs over you that keeps you from recognition. It isn't so much that your luck is bad or your abilities low, for you are a careful and conscientious workman - what really hurts is the narrow range of your imagination. Where other people see themselves forging ahead, you think you're lucky if you can keep the wolf from the door. You have

to set your goal in the stars if you're going to so much as get your head above water, the competitive world being what is. Read the poetry of Robert Browning, get inspired, and realize the "Not failure, but low aim, is sin."

### **Jupiter Sextile Neptune    Orb: 02°43'**

This adds to the spiritual insight, increasing any latent intuitive faculties and enabling you to give practical application to your hunches. Aids creative artists by adding charm and facility to their expression and by making it salable. Helps business men by enabling them to follow their hunches to good advantage. Aids all those who deal with people (professional men, politicians) by adding a peculiar magnetism to the personality and making them appear jovial, humanitarian, and charitable.

### **Jupiter Conjunct Pluto    Orb: 03°22'**

Your faith in yourself is powerful, and it is your ticket to a rich and fulfilling life. Others may not understand your goals, but they provide you with the staying-power needed to achieve whatever reward you want for your hard work. All your potential and every ounce of your energy is directed toward success - but on your own terms. You aren't likely to automatically accept the rewards or ambitions the world thinks are important. You make your own plans and don't like what you consider to be interference. Your shrewd judgment makes your decisions sound, but while you are willing to give advice, you aren't willing to take it. Self-improvement projects help you to transform your self-image, which in turn is applied toward achieving your end goal. Your religious or philosophical ideals grow from experience and add to your desire to live as fully as possible.

## **Saturn**

Saturn indicates the direction that will be taken in life by the self-preservative principle which, in its highest manifestation, ceases to be purely defensive and becomes ambitious and aspirational. Your defense, or attack, against the world is shown by the sign position of Saturn in the horoscope of birth.

### **Saturn in Scorpio**

This position is an index of a complex personality. Your defense mechanism works deep below the level of consciousness on the primal instincts and urges; your battle with life goes on within yourself continuously, even when you are unaware of it. Your thoughts, words, acts are almost automatically determined for you. You have to train yourself to know your own motives and to bring into the light of reason the urges behind what you do. The reproductive urge is directly linked with the self-preservation instinct, and you will seek for security in sex fulfillment and therefore marriage. But your defenses are up against yielding yourself to anyone else, and this stands in the way of sex and married harmony, and perhaps causes you to replace the love instinct with something more sensational that gratifies superficially without demanding as much of the whole personality. Because self-justification joins with these deep primal instincts, you are very suspicious and wary about almost everything and can be, among other things, a demon of jealousy. Your constant struggle is wearing, because you want the maximum of self-justification with the

minimum of self-yielding. If true success demands too much, you are capable of giving up the struggle entirely, of denying the urge for self-preservation and self-justification utterly, rather than yield your inner self to get it. You must strive not to take yourself so seriously, to compete with life on its own terms, and to realize that before you can vindicate the self that is so important to you, you must both know yourself and permit yourself to be known by others. They can't applaud you if you hide your light under a bushel, nor can they feel your strength when it is all working inside.

**Saturn Trine Uranus    Orb: 05°08'**

You are supported by apparently inexplicable forces, able to put across plans that others fail in and you will build your plans swiftly. If you are an artist, engineer, architect, railroad man, military or naval leader, or politician, there is a touch of the unusual about you or your work. You are a striking personality, able to "get away with" very odd ideas which unaccountably work out. There's a touch of inspirationalism about you, a quick constructive perceptivity, that wins supporters and seems magnetically to attract success.

**Saturn Square Pluto    Orb: 00°29'**

You may feel that the burdens of the world rest on your weary and fragile shoulders. With this pessimistic attitude, you can identify opportunities as obstacles and thus exaggerate the slightly troublesome things that do happen to you. This view restricts your ability to achieve your ambitions. A refusal to accept responsibilities works against long-range happiness and success. For a winning attitude, try to see that everyone has obligations to live up to, not just you. Also, learn to work more willingly with other people.

**Uranus**

Uranus in a general way relates to the neuro-mentality, creative originality or individuality, and his position by sign in the horoscope tells the direction along which you will seek to express your most characteristic self in creative and original effort. With Uranus in the same sign as Moon, Uranus indicates acute awareness, quick reaction to sense impressions and experience; a hair-trigger mind.

**Uranus in Leo**

This position represents an extraordinary confidence in the dramatization of the total personality. Because of Uranus' position in the self-conscious and dramatic Leo, you are impressionable to the prowess of great people. A kind of hero worship is natural to you; and the individualistic creative expression which will suit you best is the sort which will allow you to stand in the limelight and hear applause for your originality, your daring, your cleverness, your genius. The aim of your mental, creative originality is recognition, acclaim, applause, and you exert your deepest originality in its most characteristic form and to its best advantage when this goal is in sight.

**Uranus Square Neptune    Orb: 04°01'**

This position, because of the slow motion of the two planets involved, lasts for many years at a

time and consequently influences many people. It is the aspect of the so called "Younger Generation" that ran rampant right after the World War overturning law, order, and especially personal morality, and creating a new social order on the ashes of an old one. It is the aspect of Rebellion, and its relationship to your planets has been dealt with in the "with" passages of your horoscope. It makes pioneers in thought and action, individualists who think things through for themselves with a peculiarly ritualistic sense of their own special importance in the scheme of things and a broad social outlook at the same time. It is an aspect of idealism which has a strong touch of earth in it and a practical note underlies even your most visionary opinion. In itself, unless activated by other aspects, this will not be felt in your life but in an executive and aggressive horoscope this lends flavor to the personality, courage and independence, and warns you against the faults of these virtues, which are rashness, indiscretion, and tactlessness.

### **Neptune**

Neptune relates to the deepest wells of the subconscious, inherited mentality and spirituality, indicating what you take deeply for granted in life.

### **Neptune in Libra**

This position of Neptune brought reaction from the depression and dictator years, launched the world on its new era. The children born under this position will have a broad and idealistic outlook on the world. They will take for granted a kind of cooperative enterprise that may be novel to their elders; and will express themselves naturally, in word and deed, in ways that may seem cloud-treading and too idealistic to the more earth-bound. A conviction that individuality is best served by self-respecting alignment with others pervades their thinking and governs their lives; and this conviction is more than something reasoned out logically, for it is drawn from the deep wells of instinct and intuition, below the level of consciousness. In the social world Neptune in Libra gives grace, charm and noblesse oblige: the sense of obligation and responsibility attaching to nobility of spirit. It makes its natives gentle, affectionate, idealistic, artistic; it enhances any creative gifts; and makes one a lover of peace, harmony, and personal progress through cooperative as well as individual endeavor.

### **Neptune Sextile Pluto    Orb: 00°39'**

The ideas that were instilled in you by your parents, church and society will undergo changes throughout your life until your religious and philosophical views are distinctly your own. This type of creative adaptability makes you able to forgo selfish concerns and direct your efforts toward the betterment of all. Artistic and/or psychic talents are possible.

### **Pluto**

Pluto relates to the ability to let go of things, to get rid of irrelevant prejudices and outdated habit patterns. It relates to subconscious feelings, inner urges and repressed emotions. A strong Pluto gives the ability to see the hidden side of life, and thus bestows power on the native - power which can be used for good or ill. In the same sign as the Moon, Pluto gives a deep psychological

awareness and the ability to perceive others' hidden motives. It also shows moodiness and a sensitive nature.

### **Pluto in Leo**

Your search for ultimate meaning in life is linked with your own ego. At first you will seek to learn exactly who you are and what you mean to yourself. Although this approach may seem selfish, you have the ability to then help others find their own meaning. You are looking for your place in the greater whole - your immediate community or the entire universe, depending on how you have allowed yourself to grow. Although you understand the necessity of dissolving the ego's boundaries, you may hold back from actually doing this.

## Current Transits

The current transits are calculated exactly for the date shown. Lewi wrote text only for the aspects that he considered to be the most significant and only those are shown in this report. The dates shown only represent the times when the aspect is exact; its influence is felt for weeks, months, and sometimes even years around this time. A planet will often make the same aspect several times in one year before it leaves that area of the zodiac and moves on. This is due to the planet appearing to go backward or retrograde for a period of time and crossing and recrossing the aspect point. When this happens the effect of the aspect can be spread out over a considerable time and in this report the aspect and text will be printed for each time it becomes exact, although this series of aspects represents only one pass through this phase of its cycle. Remember that each transiting aspect is part of its over-all cycle and indicates a change of direction as well as an event. The cycle for a planet is the time it takes that planet to travel the entire 360° of the zodiac, beginning at the point where the planet is found at birth (the conjunction point), moving to the 90° point which Lewi calls the "lower square", then moving to the opposition or 180° point. Then it begins to move back towards the starting point, at the 270° point, or 90° away from the starting point, the planet is at its "upper square", and then it returns to the conjunction point where a new cycle is begun. Lewi will occasionally refer to these points in his text by name. In general all transits, whether of a planet to its own place or of one planet to another, mark cycles of growth beginning at the conjunction point, growing through the first square, fully grown at the opposition point, beginning to recede at the second or upper square, and finally starting a new cycle as it reaches the conjunction point again.

How long any aspect will be in effect is determined by the speed of the planet making the aspect (the first planet, i.e. Mars in Mars Opposite Sun). One Mars cycle is about two or two and one-half years and so a Mars aspect will last about 20 to 30 days. Jupiter takes about 12 years for its cycle and so its aspects could last around 4 months, while Saturn with a 29 year cycle will last 9 months or even more if it turns retrograde. Uranus, Neptune, and Pluto are all long range aspects and usually represent a time of 2 or more years. While Saturn and the outer planets indicate long range influences in your life, Mars aspects will identify important months and Jupiter will identify important years. Not every occurrence of these will be of striking importance. But within a larger Saturn cycle or Uranus period of great importance, these briefer influences will be found to act as the second or minute hand of the clock of destiny, as Saturn, or Uranus, or both, act as the hour hand.

### **Dec 18, 2023 - Mars Square Mars**

This transit indicates a period of hard work and abundant energies, which causes no trouble unless major disruptive influences are in force. There is a slight tendency to talk too much, boast

and be arrogant, but the swiftness of the pace generally carries you through without major trouble. Look ahead, work toward and plan for some major development to take place coincident with the conjunction of the transiting Mars with your birth Mars which will occur around Apr 14, 2024. Frequently this transit marks the busy start of something that matures at the next Mars conjunction to Mars and should be viewed with that in mind. Protect health and nerves from excess; be objective and detached; and let reason rule the emotions.

### **Dec 25, 2023 - Mars Opposite Venus**

Heightened emotions make romance, which is favored if you keep it within the bounds of reason and convention. Impulsive acts, with or without a future, are frequently found in these recurrent periods. Glamour surrounds your approach to life; you are susceptible to the opposite sex and they to you. This transit frequently indicates the time of marriage within the period of a longer transit that favors it. If the era of romance is past, this indicates an active and on the whole satisfactory social period; business progress; extravagance with money; a sudden urge to go places and do things - and perhaps a chafing at the marital bit which should not be taken too seriously. Energies work through emotions and passions, which in turn work overtime and should be gently disciplined though not entirely submerged. Often, for obvious reasons, this transit indicates the conception of children, especially if it occurs while Mars is conjunct your sun or conjunct your Mars.

### **Jan 12, 2024 - Mars Opposite Mercury**

Quick speech, thought and actions make strife and trouble. Be silent, cagey, noncommittal. The quick retort makes trouble. Wrong decisions often come in one of these periods, which recur about every six months and need careful watching. Sometimes the most casual remark results in a lasting grudge. Mountains (of trouble) grow out of molehills (of speech). It is best to be silent.

### **Jan 27, 2024 - Mars Opposite Sun**

This transit is likely to mark periods of quarrels, strife, disagreements, difficulty in getting along with people. It is therefore a good time to lie low and be silent; to observe and do your duty without argument or fuss. Conserve strength: there is a tendency to go to extremes. Adventuresomeness and romance run riot and kick up a lot of trouble. New contacts are exciting but not necessarily of any permanent worth. If other transits indicate a generally good period, increased energy here can bring good results; under negative transits you should lie as low as possible and avoid getting into trouble. There may be accidents or illness.

### **Feb 15, 2024 - Mars Opposite Uranus**

This transit is not usually important except as a marker of temperament and minor strife. But at one of these periods some major break due to temperament - some sudden shift in the pace and direction of the life - is likely to occur. The individuality is suddenly awakened to broader horizons, greater worlds to conquer, and determined to shake off the shackles of restraint. In undisciplined persons this will mark periodic temperament, rages, rebellion and strife; also accidents and setbacks due to lack of nervous coordination. In normally disciplined individuals all but one or two of these periods should be comparatively inconspicuous. But the one or two may be memorable and

probably nothing to be proud of.

### **Feb 21, 2024 - Jupiter Square Moon**

These are periods of physical and mental excess, generally resulting in fatigue and a necessity to take time off and rest. Self-indulgence wears you out and requires a holiday. This is a good time for a vacation. If you can afford to relax (and you really can't afford not to), you can enjoy life here. Be careful of excesses with money and emotions, protect your diet. The pleasures of food and drink are very alluring and make plenty of trouble if indulged in.

### **Feb 26, 2024 - Mars Opposite Moon**

Fatigue leads to strife, so relax. There may be illness and you may lose your grip on things. Refuse to take yourself too seriously. Go to bed and rest instead of brooding; you'll avoid strife and trouble thereby. Force no issues. Energy may find its expression in some glamorous romance which may or may not be important, depending on other long-range transits in force at the same time with this.

### **Mar 19, 2024 - Mars Opposite Pluto**

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Aggressiveness peaks. Care should be taken to secure your holding, protect your possessions and yourself, for this transit includes some vulnerability to the principle of redistribution. You might be knocked off your throne for no apparent reason. You could emerge from this period thinking the universe is a quixotic, capricious place, or you could take events as keynotes of respect for structure and self-care.

Sexual energy will be high. You could find yourself surrounded by irresistible people, and the tendency is to think that the veil between you and them is much thinner than it really is. Take time to treat people respectfully. Take this opportunity to de-objectify your world view and adopt a more service-oriented demeanor. Depending on how successfully you have mastered life's trials, this could be a time of "icing on the cake". Just make sure the recipients of your "death blows" are the nasty loitering ghosts in your own psyche, not the people on the street whom these ghosts resemble.

### **Mar 19, 2024 - Pluto Opposite Uranus**

This could indicate a period of "I'll find out for myself" skepticism. Your typical reaction now is one of rebellion, your stance one of independence. You may feel like a rebellious teenager. You are more likely now to make impulsive changes which could have long-lasting effects, so take the time to think twice before you act. You obsess about time constraints. Clearing your mind of clutter is time well spent during this transit. Cultivating a power of concentration - which you can do during this transit - will give you a sense of how you have wasted action in the past and how you can avoid that in the future. This is an opportunity for quick and total change, eccentric or reactionary, but that is no matter because during this transit, when intuition is strong, if you listen closely to your conscience, you know what you need to do. Erraticism in the eyes of others could be the perfectly logical step for you. Resist perfectionism. Develop a talent for stopping dead in your tracks when you spot unproductive behavior in yourself, sinning on a dime, and moving in a more

fruitful direction. People will likely come and go during this transit, especially friends. Your marriage partner might drive right to the very core of your being with seeming barbs. They truly are seeming. Of course you want to preserve your self-esteem, but evaluate to what extent you have stood solely on bluster before this transit occurred. Close love partners represent self knowledge through sharing- an opportunity best not cavorted with lightly. Understand your occasional urge to "run naked into the night" without plan or destination. Resist fear-based flight. Pluto represents a power to confront absolutely whatever is menacing you, and Uranus an ingenuity for getting yourself out of a bind. So, positively used, this transit is your breakaway ticket, from whatever has caged your brilliance.

### **Mar 23, 2024 - Mars Opposite Jupiter**

This will generally not amount to much, but periods of loss through risks or gambles or through over-enthusiasm or bad business judgment are frequently marked by it. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.

### **Apr 14, 2024 - Mars Conjunct Mars**

This is a period when new starts should be made, new plans put into execution, new ideas promoted. Energies work along their most characteristic line and can be utilized to excellent advantage. Control natural impulses if you have any that get you into trouble, because now is the time when you are "being yourself" and it is your business to be your best self, not your worst. You are starting a two year cycle and should establish the line you want to continue on for the next twenty four months. Seek new contacts, new avenues of self-expression, new channels into which to direct talents and energies. Beware lest anger and temper - letting go because you're feeling your oats - interfere with your best development. In your life check-up you will find that these recurrent two year periods marked with great consistency periods of important decisions, developments, activity and changes.

### **Apr 21, 2024 - Mars Square Venus**

Social and romantic glamour leads to excesses, sometimes to strife, quarrels, separations. Minor loves and friendships break up, but important relations are merely strained; and indeed this frequently adds glamour to a deep love, intensifying its beauty. A break here, unless contributed to by some more important transit, is a sure index that the feeling wasn't very deep or important anyway. Avoid excess spending and stay away from temptation if you're interested in sticking to the conventions.

### **May 8, 2024 - Mars Square Mercury**

Quick speech, thought and actions make strife and trouble. Be silent, cagey, noncommittal. The quick retort makes trouble. Wrong decisions often come in one of these periods, which recur about every six months and need careful watching. Sometimes the most casual remark results in a lasting grudge. Mountains (of trouble) grow out of molehills (of speech). It is best to be silent.

**May 9, 2024 - Saturn Conjunct Mars**

Restraint of energies is required. There may be illness, especially if you try to do too much. Exercise discipline of physical and temperamental forces; your dynamics externalize badly; you may feel that your personality fails to assert itself and should not try to force your will or your ways on others. Avoid strife and excess effort; you'll feel blocked and frustrated if you don't. "Ride loose in the saddle of fate," for this is no time to fight destiny by trying to alter the normal course of events. Will power won't work effectively. Need for complete rest and withdrawal follows any serious effort to break down the resistance of things as they are. Guard health, nerves, human relations.

**May 13, 2024 - Jupiter Square Pluto**

This is a meeting of the Mentor and Transformation principles - perhaps a collision. Jupiter can inflate optimism to a bursting point. You are closer to walking on water - or at least trying - than ever before. You are also closer to the meaning of death. Take care you don't seek out death or becoming overly controlling of your destiny. This is a time to let things unfold somewhat at a distance. Jupiter is opportunity, and chances will come to you during this transit. This is a great time for study. You will have powers of concentration; use them to reach deeply into the ante-chamber of your soul. You will seek out knowledge above and beyond the call of duty of the class curriculum and ally yourself with people and books that will transform your attitudes forever.

**May 23, 2024 - Mars Square Sun**

Domestic matters are important. This transit frequently times a move from one house (or town or locality) to another, or some important decision in the private life. New starts work out if well considered and unmotivated by temperament. Social activity is increased; you have lots of friends around you. This is a good time to begin new ventures for quick completion, ventures which have a bearing on your longer-range plans. This is a good time to clean house, redecorate, etc. The home is likely to be upset, and it's wise to make the upsetting literal and to some good purpose, instead of figurative and quarrelsome.

**May 27, 2024 - Jupiter Square Jupiter**

These periods fall halfway between Jupiter's conjunction with his own place and his opposition to it and indicate minor shifts in emphasis in your work and life plan. Opportunities may become more numerous; or, as is the case most of the time, you will simply be busy with what you are doing, and perhaps careless of money as a result. Financial status at these periods tends to remain fixed for about three years, and you should budget ahead according to the situation you find yourself in.

**Jun 11, 2024 - Mars Square Uranus**

This transit is not usually important except as a marker of temperament and minor strife. But at one of these periods some major break due to temperament - some sudden shift in the pace and direction of the life - is likely to occur. The individuality is suddenly awakened to broader horizons, greater worlds to conquer, and determined to shake off the shackles of restraint. In undisciplined

persons this will mark periodic temperament, rages, rebellion and strife; also accidents and setbacks due to lack of nervous coordination. In normally disciplined individuals all but one or two of these periods should be comparatively inconspicuous. But the one or two may be memorable and probably nothing to be proud of.

### **Jun 22, 2024 - Mars Square Moon**

Fatigue leads to strife, so relax. There may be illness and you may lose your grip on things. Refuse to take yourself too seriously. Go to bed and rest instead of brooding; you'll avoid strife and trouble thereby. Force no issues. Energy may find its expression in some glamorous romance which may or may not be important, depending on other long-range transits in force at the same time with this.

### **Jul 16, 2024 - Mars Square Pluto**

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Aggressiveness peaks. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.

### **Aug 15, 2024 - Mars Square Mars**

This transit indicates a period of hard work and abundant energies, which causes no trouble unless major disruptive influences are in force. There is a slight tendency to talk too much, boast and be arrogant, but the swiftness of the pace generally carries you through without major trouble. You should not let distractions interfere with plans you started when Mars was conjunct Mars on Apr 14, 2024. Protect health and nerves from excess; be objective and detached; and let reason rule the emotions.

### **Aug 21, 2024 - Saturn Conjunct Mars**

Restraint of energies is required. There may be illness, especially if you try to do too much. ### **Aug 24, 2024 - Mars Conjunct Venus**

Heightened emotions make romance, which is favored if you keep it within the bounds of reason and convention. Impulsive acts, with or without a future, are frequently found in these recurrent periods. Glamour surrounds your approach to life; you are susceptible to the opposite sex and they to you. This transit frequently indicates the time of marriage within the period of a longer transit that favors it. Often, for obvious reasons, this transit indicates the conception of children, especially if it occurs while Mars is conjunct your sun or conjunct your Mars.

**Sep 14, 2024 - Mars Conjunct Mercury**

Sharp wits help if you use them right, hinder if you get smart-alecky with them. Snap judgments, quick speech, sharp retorts and anger make trouble. On the other hand, keen perceptions give you the edge on others; you express yourself readily and to good effect if you keep emotions and personalities out. Sensory perceptions and powers of observation are increased. Creative powers mount; rapidity of mental processes enables you to do more than usual. Mental fatigue can result; budget time for relaxation and sleep. Any tendency to insomnia is emphasized; also to temperament, temper and self-will. This is a good time to sell, bad time to buy. Business is active, judgment shrewd. Sign no papers, don't commit yourself permanently; the picture changes too rapidly. Avoid strife, especially over trifles. Distrust intuitions; put deep trust in hard work and pure reason.

**Oct 6, 2024 - Mars Conjunct Sun**

The new starts of your Mars conjunct Mars are helped greatly with this aspect; your energies work smoothly, starting with Mars conjunct Mars (Apr 14, 2024) and gaining momentum as this aspect is reached.

Your danger at this time is temperament, temper, a tendency to feel your own importance too strongly and to get into trouble because of it. Also, unless you have the endurance of an ox, you will tire yourself as Mars transits your Sun, and fatigue is likely to lead to strife, breaks and separations. Translate your energies to work, activity, detached application to a job or task; and don't get touchy or allow personal reactions to interfere with efficiency. This can be a romantic period; your magnetism is high, and you are likely to get what you want if you moderate your demands and use more persuasion and less insistence than you want to. Intuitions can go wrong, and you need the balance of strict mental discipline to bring out the best of your energies. However, it is an excellent time to go after what you want, and marks periods of important decisions and moves.

**Nov 9, 2024 - Mars Conjunct Uranus**

Expect temperament, haste and anxiety. Your nerves require watching. These problems can lead to illness from fatigue and nervous exhaustion. You risk accidents (literal and figurative!) from excess speed and lack of care over details. Watch temperament. Accidents in the realm of human relations result from overemphasizing the ego and minimizing the other fellow's viewpoint. Inventiveness abounds; originality is in the saddle; but you can't get your best and truest ideas over to any good advantage, and simply make trouble if you "try too hard." Store them up for a later time when you express them better and when other people listen to you more readily. Look out for machinery, travel, electricity; avoid danger, be careful getting on and off trains and crossing streets.
